11. Explanatory Notes

IBAN International Bank Account Number/BIC Code Bank Identifier code (code SWIFT)

- The IBAN is composed of 27 digits.
- Format IBAN: FRkk BBBB BGGG GGCC CCCC CCCC CKK
FR = Ländercode, kk = clé de contrôle , B = code banque, G = code guichet , C = n° de compte, K = clé RIB
- BIC: Bank Identifier Code (code SWIFT)

SEPA Direct Debit

All SEPA direct debits are subject to the prior signing of a service agreement aimed at specifying the conditions under which the Bank must receive and execute SEPA Direct Debit Orders by remitting them for collection at the Debtor's Bank.

Before any operations, it is the customer's responsibility to check that their account is sufficiently funded or have a line of credit, to provide readable, complete and correct data.

Any illegible, incomplete or missing data may give rise to delays or processing errors, which may therefore cause damage to the customer. In the event of illegible, incomplete or missing data, the bank may also refuse to process the transaction.

If the customer wishes a transaction to be processed urgently, he must expressly notify the bank. For transfer orders given via a form, this information must be specified separately.

Charges for courier services vary depending on the rates agreed with the service providers.

Conversion rate for operations in foreign currency

During transactions in foreign currencies (e.g. receipt of payments and issuance of payments) the bank reserves the right to invoice the purchase and sale of currencies, except for any other agreement, at the exchange rate defined daily at 1:00 p.m. (local Paris time) and published on the bank's website:

<https://www.commerzbank.de/en/hauptnavigation/kunden/kursinfo/devisenk/devisenkurse.htm>

The purchase and sale of currencies whose realization is not possible until the appointed time will be invoiced at the exchange rate defined on the following day.

Interest rate for unauthorized overdrafts

Rate applied for debit interest for all unauthorized overdrafts: Base Bank Rate + 3%
